vision

Leselithub aims to become the number one billboard company in Africa both in infrastructure and brand equity. Therefore the money raised from selling shares will go into building more billboards and purchasing existing infrastructure from other smaller billboard companies.

We intend to build 200 more billboards throughout Lesotho, and expand into parts of North and Southern Africa with the chief focus being the SADC region thus becoming a key player in the global billboard industry with HQ in Maseru Lesotho.

Another important role in the billboard industry is the printing and design aspect; as a complementary service we will open a middle sized printing and design studio that will suit our billboard service offering in turn creating hundreds of jobs both locally and abroad.

Lets do this...
